Mobile: +91-7999984422

Skills

- **Languages**: C++, Python, C, Java
- **Frameworks & Libraries**: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
- **Tools & Platforms**: MySQL, Excel, Power BI, Jupyter Notebook, Google Colab
- **Core CS Fundamentals**: DBMS, OS, CN, SQL, OOPs, DSA
- **Soft Skills** Leadership, Problem-Solving, Adaptability, Quick Learner

Projects

Bengaluru House Price Prediction | **GitHub** Jun' 25 – Jul' 25

- Built a machine-learning model that predicted Bengaluru house prices by analyzing property features, locality influence, and price variations across regions.
- Improved the dataset through data cleaning, missing-value handling, feature modification, and outlier removal, which increased model accuracy.
- Examined major variables such as square feet, bedrooms, and bathrooms through statistical methods to identify their contribution to price changes.
- Delivered dashboards and charts that showed model predictions and feature importance with clear, actionable insights.
- **Tech stack**: Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Power BI

Data Science Jobs in India | **GitHub** Mar' 25 – Apr' 25

- Developed an Excel dashboard that evaluated salary patterns, hiring trends, and demand levels across India and highlighted top-paying roles and required skill sets.
- Organized job-related data through pivot tables and advanced Excel features to produce structured summaries for analysis.
- Created waterfall, combo, pie, line, and bar charts to represent salary ranges, demand distribution, and industry-wise hiring patterns.
- Enabled interactive decision-making by adding KPIs, slicers, and filters for fast comparison and exploration of job insights.
- **Tech stack**: Microsoft Excel

Training

From Data to Decisions: A Hands-On Approach to Data Science Jun' 25 – Jul' 25

- Learned core concepts of SQL, Excel analytics, Power BI reporting, Python programming, exploratory data analysis, feature engineering, and machine-learning algorithms.
- Developed strong practical abilities in data cleaning, statistical analysis, visualization, model building, and insight interpretation using industry-standard datasets.
- **Tech stack**: SQL, Microsoft Excel, Power BI, Python (NumPy, Pandas, Matplotlib, Scikit-learn)

Certificates

- Privacy and Security in Online Social Media - NPTEL | **Link** Nov' 25
- Computational Theory: Language Principle & Finite Automata Theory - Infosys Springboard | **Link** Aug' 25
- ChatGPT- 4 Prompt Engineering: ChatGPT, Generative AI & LLM - Infosys Springboard | **Link** Aug' 25
- From Data to Decisions: A Hands on Approach to Data Science - LPU | **Link** Jul' 25

Achievement

- Solved 100+ coding problems across **LeetCode** & **HackerRank**, sharpening problem-solving skills. Dec' 25
- Earned top badges on **LeetCode** and **HackerRank**, including a 5-star rating in Python for consistent performance. Dec' 25

Education

Lovely Professional University Phagwara Punjab
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 6.91*** *Aug' 23 - Present*

Indus Public School Korba, Chhattisgarh
Intermediate; ***Percentage: 71.6*** *Apr' 22 - Mar' 23*

Indus Public School Korba, Chhattisgarh
Matriculation; ***Percentage: 96.6*** *Apr' 20 - Mar' 21*
